TOBACCO HELD TWO YEARS SOLD FOR \$700,000.

Louisville Tobacco Warehouse
Company Disposes of Green
River Leaf.

OVER 6,000 HOGSHEADS IN LOT.

(Louisville Post)

The Louisville Tobacco Warehouse Company has sold 6,800 hogsheads of the dark Green river crop of 1905, which was stored by the Greenville branch of the American Society of Equity.

The sale is one of the most important

in year and interests the growers, the tobacco dealers, and financial interests generally.

The owners of the tobacco had passed their interests through the Society of Equity and stored the tobacco with the Louisville Tobacco Warehouse Company. The banks had loaned money on it and a great deal of local capital was in this way tied up while waiting for the tobacco to be sold.

The total price was received for the tobacco was about \$700,000. The purchasers came to the terms which had been fixed by the Society of Equity.

The warehouse company says that the tobacco was sold to various manufacturers and exporters, and that none of it was sold to the American Tobacco Company, the trust.

The consignment was a mixture of leaf, lug and trash. The leaf brought from \$10 to \$15.50, while the lugs and trash ranged from \$6.50 to \$10.50 per hundred. The average price per hogshead is over \$100, which would make the total something over \$650,000.00, with \$700,000 as the estimated total.

An officer of the warehouse company said that the sale is one of the most remarkable ever made in Louisville. The tobacco has been selling on the break at from \$3.50 to \$4 per hundred.

The consignment was received about a year ago, some of it coming in as late as October, 1906, but none of it was disposed of until late in March, 1907; so that the demand for this grade necessarily made it valuable, and the purchasers were willing to pay almost any amount for it when the Louisville Tobacco Warehouse Company decided to place it on the market.

The effects of the strike, releasing as it does hundreds of thousands of capital, will be generally felt both in Louisville and throughout the Green river section.

CROP REPORT FOR KENTUCKY.

Both Wheat and Corn Will Fall Short In Average

Crop.

Frankfort, Ky., July 15.—In his crop report issued today, the Commissioner of Agriculture says in part: The first half of the month of June was quite wet, raining nearly every day. Severe storms of wind and hail in some localities. Corn planting, especially in lowlands, was already late, was still further retarded by these excessive rains. The early planted corn suffered for cultivation, and many fields became foul with grass and weeds. The latter half was almost ideal, and gave farmers splendid opportunity to get their wheat in the shock in good condition, and wage a war on the weeds that were rapidly taking over the corn fields.

The acreage in corn is a little short of last year, owing largely to the unfavorable weather and continued late in the season for preparation of much of the lowlands that would have been planted under favorable conditions. The condition of the corn crop is not up to the standard for the reason stated and that much bad seed was planted and failed to germinate, causing a great deal of replanting and making the crop very irregular.

The wheat crop improved materially during the month, but will fall short of an average crop. While the yield will be less than an average, the berry promises to be very fine. The prospective yield is 16 per cent less than the 1906 crop. Oats promises only about three-fourths of the 1906 crop. Many counties report the crop almost a failure and only a few report a prospect for a full crop. Rye promises some better, but considerably below last year. Hemp is nearly as good as last year. Hemp is in condition. Tobacco is in a poor average and condition. Tobacco is reported 10 per cent short of last year's acreage, owing to scarcity of plants and labor. Much of this was planted late in June, and will depend largely upon a late fall if it makes a good yield. The dark district has fallen off 28 per cent in acreage for want of plants to set a full crop. Much of this is also late. Grasses are doing fairly well, considering the damage done by the army worm. The high price and scarcity of seed cut the acreage of stock peas. Potatoes promise a full crop. The fruit crop, except berries, will be a very short one. There will be something near a full crop of sorghum and millet. Much of these crops are usually planted in July and August. On the whole the outlook is not so gloomy as appeared some weeks ago.

FAILURE IN BOSTON.

Municipal Ownership Tried by the Hub, but Found Wanting.

It was voted in 1906 not to try to establish Municipal Gas and Electric Light Works because the City had already shown its inability to carry on Public Utilities—History of the Unsuccessful Attempts.

In 1906 the city council of Boston voted against attempting municipal gas and electric lighting on the ground that the city had already proved its inability in such matters by a succession of failures.

In 1907, for instance, Boston established a municipal printing plant. Five years later, in 1902, Harvey Chase, an expert accountant, who was examining all the city departments for Mayor Collins, and Thomas P. Nichols, an expert in municipal government, found that the city had already lost over \$40,000 and that a greater loss was avoided only by changing other departments more than they would have had to pay outside printers.

They also reported that at the time of their investigation the stock room was crowded with unnecessary paper, bills, etc., bought at great expense and liable to depreciation by handling or damage by fire; that some valuable stock, then very recently bought, could not be accounted for; that there was found no record of its use; that excessive rates were paid for ruling and binding done outside; that there was an entirely unnecessary number of employees in all divisions of the department who added to the expense.

They also reported that a dispensation to kill time was manifest, and that in spite of the fact that the hours of employees were shorter than in private plants less was accomplished per man per hour worked.

The operation of two ferry lines from Boston to East Boston, which were bought by the city in 1850, had been set up as another object lesson. Until 1870 the ferries were leased at a loss and since then have been operated by the city at an even greater loss.

In 1870 the city made the magnificent profit of \$63,88, but in each of the other forty-seven years up to February, 1906, there was a deficit varying from \$780 to \$232,000 and amounting in all to \$37,43,548, or an average of almost \$3,000 a year.

These corporations and individuals constitute what is generally known as the "tobacco trust," and the petition directed against them sets forth the purpose of the government to dissolve this trust by breaking up the agreements and by compelling the concerns working in showing the growth of the "trust" since its organization in 1890 the conclusion is reached that at an early day, unless prevented, it would completely monopolize the entire tobacco industry.

AFTER TOBACCO TRUST

Government Takes Action Against Big Trade Combination.

New York, July 11.—The government has filed in the United States circuit court in this city a petition against the American Tobacco company, the Imperial Tobacco company, the British American Tobacco company, the American American Tobacco company, the American Cigar company, the United Cigar Stores company, the American Stolle company, the MacAndrew & Forbes company, the Corley Fall company and fifty-six other corporations and twenty-nine individuals connected with the tobacco industry.

These corporations and individuals constitute what is generally known as the "tobacco trust," and the petition directed against them sets forth the purpose of the government to dissolve this trust by breaking up the agreements and by compelling the concerns working in showing the growth of the "trust" since its organization in 1890 the conclusion is reached that at an early day, unless prevented, it would completely monopolize the entire tobacco industry.

Another Glaring Violator.

Chicago, July 11.—Facts showing that the International Harvester trust is the most glaring violator of the Sherman law in the United States have come into possession of the United States government, and the time the government has entered upon further investigation, with a view to wiping the trust out of existence.

Nearly all old-fashioned Cough Syrups are constipating, especially those containing opium. They don't act just right. Kennedy's Laxative Cough Syrup contains no opium. It drives the cold out of the system by gently moving the bowels. Contains Honey and Tar and tastes nearly as good as maple syrup. Children like it. Sold by all druggists.

The Statesman.

Not he through the channels of the State
Conveys the people's wish, is free.
His name is pure, his fame is free.

He cares, if ancient usage fade,
To shape, to settle, to repair,
With seasonable changes fair,
And innovation grade by grade:

Or, if the sense of most require
A precedent of larger scope,
Not deals in threats, but works with
hope.

Aud lights at length on his desire:

Knowing those laws are just alone
That contemplate a mighty plan;
The frame, the mind, the soul of man,
Like one that cultivates his own.

He, seeing far an end sublime,
Contends, despising party rage,
To hold the Spirit of the Age
Against the Spirit of the Time

When you feel the need of a pill take
Dr. DeWitt's Little Early Riser. Some
pill, some cure, some pills. Easy to take,
pleasant and effective. Drives away
headaches. Sold by All Druggists.

There is more pleasure in this section of the
country than any other place put together,
and until the last few years was unoccupied
by insurance. For a great many years doc-
tors pronounced it a local disease, and
people here, realizing that by going to
the city, failing to cure with local treatment,
pronounced it incurable. Science has proven
certain to be a constitutional disease and
not a local one. The following statement
will be of interest to all:

Hall's Catarrh Cure, manufactured by F. J.
Cheney & Co., Toledo, Ohio, is the only
constitutional cure on the market. It is
a safe, reliable, non-irritating, non-irritating
cure. It acts directly on the blood
and mucous surfaces of the system. They
offer one hundred dollars for any case it fails
to cure, so you can depend on it. Testimonials
Address: F. J. Cheney & Co., Toledo, Ohio.
Sold by Druggists.

Take Hall's Family Pills for constipation.

Besides the delightful short stories in
the August Smart Set, many spicy
things are scattered through the
magazine. Among them:

There is only one thing longer than
a woman's tongue, and that is her
memory.

To forget the name of last week's
sweetheart means that you are
but to forget the name of your first
sweetheart means that you are growing
old.

It Wake the Sultan Up.

Tangier, July 12.—It is declared
here that the Sultan of Morocco is
deeply incensed at the recent capture
by the bandit Raisul of Calid Sir
Harry MacLean, the commandant of
Rasul's forces, and that he is
greatly attached. The sultan is
preparing to march personally against
Rasul, and in view of this proposed
expeditious extensive forces have been
assembled at Fez.

Muskrat Robbers.

Indianapolis, July 12.—Two uniden-
tified white men entered a pawnshop
at 387 Massachusetts avenue late yes-
terday afternoon, and, stunning Simon
Gold, a clerk, obtained a large sum
of money, the amount amounting to more
than \$3,500. Gold is in the city hos-

recovery is doubted.

Alleged Spy Arrested.

San Diego, Calif., July 12.—A report
was in circulation today that a Jap-
anese had been arrested at Fort Rose-
crans in the course of his espionage
activities. The arrest, it is said,
was made two evenings ago, but
where the Japanese is now and who
he is not publicly known. Major
Getchell will give no information.

Greeted With Applause.

San Fran Isco, July 9.—Major Eu-
gen E. Schmitz, who was recently
convicted of extortion, was sentenced
to five years in the penitentiary
at the end of his trial. There
was a remarkable outburst of
applause from the hundreds of per-
sons who crowded Judge Dunne's
courtroom.

A Growing Death List.

St. Paul, July 6.—Twenty-one are
now known to have been killed in the
tornado which swept a path 100 miles
long and from a mile to a few rods
wide through central Wisconsin Wed-
nesday night. Details are coming in
slowly, but it is believed that the
death list will be further increased.

May Survive Awful Shock.

Crown Point, Ind., July 6.—While
switching cars on the Pan-Hudson rail-
way, a boy was struck by lightning.
A shoe was torn from his foot, his trousers torn to
shreds, keys and money melted in his
pocket and his body burned from neck to
toes, he may survive.

Strike Action Postponed.

Chicago, July 8.—The telegraph oper-
ators employed by both commercial
telegraph companies in Chicago will
not go on strike for a week at least.

purpose of voting on the strike propo-
sition, it was decided to postpone
action for one week.

FRANCIS MURPHY'S POWER.

Noted Temperance Advocate's Influ-
ence on a Saloon Keeper.

In Los Angeles recently the late
Francis Murphy, temperance advocate,
entered a saloon and introduced him-
self to the owner, says the Kansas
City Times.

"Gwan, you alnt Francis Murphy,
the great temperance man?"

"That's just who I am. I just drop-
ped in to have a quiet night and to tell
you there are a series of meetings at
the Y. M. C. A. every night this
week and at 3 o'clock tomorrow after-
noon, and I want you to come up or
send some of the boys and help."

"I wish there were none of us in
this business. I don't sell liquor be-
cause I want to, but just because some-
body else would if I don't. So you're
Murphy," and the speaker looked over
the man and said, "You're a good
man, but you're not a good business
man." "Say," he added, "let me tell
you I admire you and your work, but
that's about as much as a se-
nior could say."

"Except that he will attend my meet-
ings."

"Well, Mr. Murphy, I'll do it. The
law compels us to close tomorrow, and
that'll give me a chance to come and see
you. Remember, I'll be there."

The man came. In two weeks he
had sold his saloon and bought a small
fruit ranch a few miles from Los An-
geles.

The Biggest Horse.

Nebraska Queen, the largest mare on
earth, is a product of the breeding
of the famous stallion, Old Tom, of
Kings, Neb., and is being exhibited in Kansas
now, just as the Kansas City Journal
says. Mr. Sparks is to the horse world
what Burbank is to the vegetable world,
to the world of vegetation, and he is
the world of horses. He has brought
the "Little Giant" to the world, and
it is a fine specimen, making two
horses grow where one little one grew
before, and he is doing it. He has
raised a number of large horses, but
none so large and perfect as Nebraska
Queen. She is 201 hands high. Ac-
tual weight, 2,000 pounds. She is
a perfect specimen, tall, gen-
tle and intelligent, of beautiful color
and is truly a model horse.

Marking Historic Spots.

One by one the historic spots of
Thomaston, Me., are being marked,
says the Kennebec (Me.) Journal. Next
is the 11th century castle of the
maine. Montpelier, famed as the
home of General Henry Knox. When
that palatial structure stood, will be
marked with a broad tablet, and the
memorial stone will be erected.

The bowlders, which were
removed from the town farm at
George and weight twelve tons
each, will be used to mark the
memorial stone.

Dr. Donald McDonald, of Danville,
will preach from the Presbyterian pulpit
on tomorrow, Thursday evening. Dr.
McDonald is recognized as one of the
ablest ministers of the State and a large
audience should greet him at his ap-
pointment tomorrow.

Business Secrets

Worth Knowing.

Every man who deposits his cash in a
bank establishes his financial standing,
hints at the wealth he's not yet earned,
carries along enterprises that demand
mostly energy at the start, and, if his
credit be good enough, is allowed to
borrow cash against his account without
in any way disturbing his standing before
the business world. Unanswerable

Chester Chappell contemplated going to Center Point, Ind., in a few days.

On July 8, 1907, the death angel visited the home of H. M. Claycomb and took from him his beloved wife. Before marriage she was Miss Angie Chappell, daughter of Mr. and Mrs. Wm. C. Chappell. She was married to Old Friend, Mr. Claycomb on August 10, 1879, and was married April 23, 1845, to Mr. Byron Bandy, her faithful husband, who died in 1887, leaving her with two sons. Mrs. T. J. Dugay, Mrs. T. J. Triplett, R. S. Bandy, W. L. Handy, J. L. Bandy, S. T. Bandy and many grandchildren to mourn her departure. She bore her afflictions with Christian fortitude until God relieved her from this world, and has taken her up to those mansions above to wait for our dear Master come for her. Not long before death she was heard to say, "Why don't they take me home?" Though sick for a long time, she bore her illness with a Christian faith, and expressed a willingness to go at any time. She leaves a husband, father, five brothers, two step-sisters and a host of relatives and friends to mourn her loss. She is not dead, but gone to prepare a place for her loved ones. The day before she died she expressed a desire to see one of her friends and relatives, and when told she could be seen in a few days she said, "It will be too late then." She realized her time on earth was but a short time. She was laid to rest on the 9th, in the Raymond cemetery, after a funeral discourse by Rev. I. C. Argabright. Her grave was covered with beautiful flowers brought by many friends for that purpose. The family have the sympathy of the entire community.

A PRETTY MILKMAID

Thinks Peruna Is a Wonderful Medicine.

MISS ANNIE HENDREN.

SALVATION ARMY COLONY.

Free Farming Lands For Deserving Families From Large Cities.

The coming fall will witness the inauguration of a new colonization plan by the Salvation Army, says the Philadelphia Record. Deserving families from the large cities will be directed to agricultural lands in the northern part of the south, where land owners are willing to provide not only land and houses, but also implements, horses and even seed, and where admission of the new colonists can be obtained on the payment of a tenant's share of the crop. A thousand families are now ready to go from the cities into the south as fast as the arrangement can arrange for them.

In order to do this the south two plans will be followed. In every instance where possible the arrangement will be such that at the end of a certain number of years the tenant shall have the option of purchasing the land from the owner. When this is not possible the newcomer will locate on the strictly tenant plan, without option of future purchase. Even in this case he has the advantage of becoming a farmer, and with what he can gather together as a tenant he will be able to buy some land on his own account.

The part of the south in which the new colonization work is to be carried on will be largely in the Carolinas and Georgia, and in the southern part of Tennessee, one bottle of Mansfield.

"I can tell you my luck in house, milk the cows, take care of the milk, and so forth. I think Peruna is a most wonderful medicine."

"I believe I would be bald to day if I had not had Peruna. I took it for advice. I had taken all kinds of medicine, but none did me any good."

"Peruna has made me a well and happy girl. I can never say too much for Peruna."

Not only women of rank and leisure prize Peruna, but the industrious, well-wooded women engaged in honest toil would not be without Dr. Hartman's plan.

The Doctor has prescribed it for many thousand women every year and he never fails to receive a multitude of letters like the above, thanking him for his advice, and especially for the wonderful benefits received from Peruna.

Gone to Rest.

Mrs. Byron Bandy died on the eighth of July, 1907. She left us to go to her father, whom she had served for sixty years. She was a consistent member of the Presbyterian church at Old Friends, and the church has lost a faithful member and we a good mother. She always had a loving greeting for her children. She was born January 3, 1829, and was married April 23, 1845, to Mr. Byron Bandy, her faithful husband, who died in 1887. She divulgated that he had five more applications from women in Missouri and from Illinois, Iowa and Indiana, each of whom believed herself easily enough to meet the requirements of the public school system.

Superintendent Andras recently asserted that the average of attractive women among teachers in his jurisdiction was not high enough. He believes he is not alone in this opinion, and, according to his plan, he has engaged a number of pretty teachers than from women with "wry faces and bad tempers." Applications would be received gladly, he added, and newspapers in several neighboring states gave public notice of his plan.

Even two big applications flowed into his Clayton office in a steady stream. Half the applicants sent photographs. Many of the others told the superintendent they cheerfully would travel for personal inspection. All the women handsome enough to have good chances in a beauty contest. When he saw the pictures to the venerable school trustees each of the officials breasted new interest in his duties.

the Hargie Case Continued Until Next Monday.

Sandyhook, Ky., July 10.—Special Judge W. B. Moody last night decided to continue the case of Judge James Hargie, charged with killing Dr. B. D. Cox at Jackson, four years ago, until next Monday, and instructed the commissioners to have the witness present and ready for the trial. The most important witness for the prosecution are scattered over four or five states in the West, but every effort will be made by the prosecution to get them within reach on the ground time for the opening of the case.

From Attorney Fred Byrd, it was learned today that the prosecution would have many surprises to offer during this trial. It is reported that another witness would be induced to give the confession of John Smith, which caused the indictment of Judge Hargie and others for the assassination of Dr. Cox.

A physically weak woman is never attractive, nor even to herself. Electric Bitters restore weak women, give strong nerves, bright eyes, smooth, velvety skin, beautiful complexion. Long Live The King is the popular cry throughout Europe, and while we are not sure of the present, it is "Long live Dr. King's New Discovery, King of Throat and Lung Remedies," of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it is the proven remedy. Guaranteed by Severs Drug Co. 50c and \$1.00. Interesting Letter.

Lockport, Niagara Co., N. Y. Editor of Breckenridge News.

Noticing the seemingly low excursion rates advertised in your interesting and news paper, from Cloverport to Niagara Falls and prompted by no further recompense than the warm feeling I have for the silver tongued Kentuckian, caused by the genial reception and entertainment both Mrs. Babbage and the writer had at the hands of our friends and many of the residents in your enterprising little city and surrounding country one short year ago, I take pleasure in writing the article you will see, hoping it will be of some service to your readers, more especially to those who are contemplating a visit to the Falls and the Niagara Frontier this summer.

As you will no doubt enter the Empire State over one of the four trunk lines (Frie R. R., Lake Shore R. R., Nickle Plate R. R., or Penna. R. R.) the first place of interest will be the beautiful Chautauqua Lake, located in Chautauqua county ten miles from Lake Erie in the highest altitude in this section of New York; a sparkling, clear water Lake nestled in among the hills, covered with rich vineyards and farm lands and on whose shores the great Chautauqua assembly meets annually.

When entering Buffalo, the queen of the lakes, and but twenty miles from the great Niagara, if your transportation allows, don't fail to stop at the Bison City, walking two blocks to the left from Exchange St station where all trains arrive, you come to Main street, Buffalo's great thoroughfare. Three blocks to the right now brings you to Ellicott Sq., building said to be the largest office building in the world. The beautiful McKinley Monument here will be dedicated during Buffalo's Old Home Coming in September, in honor of him who was so greatly assassinated at the American Exposition in Buffalo. Other points of interest are Cananaville Park, Observatory, Delaware Park, the Albright Art gallery, etc. You can go to Niagara Falls by Truley every 15 minutes.

I hope this short article may be of some assistance to my Kentucky friends or to the many readers of the News in their trips to the Niagara Frontier, the present year. Wishing the News much prosperity, I am very truly, E. H. Babbage.

Reception for Visitors.

Mrs. John T. Ditto and Mrs. James S. Baldwin had a reception at the home of Mrs. Ditto, 723 West Main, Friday afternoon in honor of Miss Addie Ditto, of Louisville, Ky., sister-in-law of Mrs. Ditto and Miss Sarah Lishman, of New Albany, Ind., sister of Mrs. Baldwin. Three hundred invitations were issued.

Garden flowers were used for decorations throughout the house. In the front parlor sweet peas and sunflowers were used. In the back parlor nasturtiums were used with the sunflowers. Sunflowers were draped around the chandelier and brought down the four corners of the table.

As the guests arrived they were met in the hall by Miss Eunice Bush, and Mrs. George A. Stader.

Mrs. Ditto and Mrs. Baldwin were assisted through the house by Messrs. W. J. Davidson, W. H. Stahr, Robert Clary and E. J. Haines and Misses Mary Clary and Maude Martin. On the porch fringe was served by Miss Lucy Penhallagon, Marie and Helen Morgan, Esther Starr (Ruth Atterberry), Lucy Cloyd and Zada (Zebbie) Dickey. The Meade County Messenger says: "We predicted last week that the race for the Legislature in this county would be the 'warmest and most bitterly fought in years' and our predictions are proving true. Quite a sensation was caused here Monday afternoon when it became generally known that Hon. Gus W. Richardson, through his attorney, J. D. Hardin, had filed suit against Hon. A. J. Thompson for slander, asking damages to the amount of \$15,000."

"Mr. Richardson in his petition says that he has been slandered and libeled by D. R. Shacklett, Fester Stith and others falsely and maliciously spoke of and concerning him, using these words: 'Gus W. Richardson, while I was sick with typhoid fever, forged my name to a note in the Hardinsburg bank for \$100 and I had to pay it. I keep him out of the penitentiary.'

"Mr. Thompson is the present representative from this county, and is seeking the Democratic nomination again. Mr. Richardson announced his candidacy for the nomination in last issue. They are also brother-in-laws.

"We understand that Mr. Harlan will have associated with him one of Louisville's most prominent lawyers."
